

December 04, 2025: Letter to Senator Ted Cruz

Ted Cruz:

I am an attorney and former member of the Republican Party of Texas. In 2022, I was elected as the Precinct Committee Chair of my neighborhood in Bexar County, Texas.

At that time, Donald Trump's political campaign began spying on my home and began attempting to engage me into actions on his behalf using a form of 'sign language' and 'signal' based communications. Apparently, I am not of a high enough stature to be communicated with directly (and honorably) by his team. Perhaps his team was simply cautious in keeping me at a distance because they knew that I would not participate in his ongoing criminal operations.

Since that time, his team has continued to spy on my home and is forcefully driving messages into my home on a daily and hourly basis using machine-created noises, vehicles, and other 'sign language.' This is apparently a fun game that is being played with the tools of the United States military, national security team, and local members of our San Antonio Police Department.

WRITE TO TED

HELLO! THANK YOU
FOR REACHING OUT
TO OUR OFFICE.
TED

Ted, I am alerting your office in no uncertain terms: DONALD TRUMP'S TEAM IS USING THE UNITED STATES NATIONAL SECURITY APPARATUS TO WAGE A PSYCHOLOGICAL WAR AGAINST HIS POLITICAL OPPONENTS.

This is a matter of great concern to me as a citizen of America. As an attorney, I am informing you that Donald Trump appears to be committing treason.

Please take this email to be a very serious indication of how far that the convicted felon named, Donald Trump, has fallen since first being elected as President in 2016. It is now readily apparent that he did, in fact, create an insurrection at the capitol and likely succeeded in being used as a tool of oppression in a military coup de tat that now controls much of America.

Personally, I believe that you are also subjected to this exact same operation and that you know exactly what I am referring to when I write this message.

I am letting you know - publicly - that you have an obligation to stand up for your constituents and to have criminal charges brought against Donald Trump for his ongoing criminal campaign in the name of America itself.

Kindest regards,

Chris Carlin
